### **COURSE DESCRIPTION:**

**Terry Real** presents his introductory training course, Relational Life Therapy--- RLT Level 1 Training.

After teaching RLT workshops all over the U.S., Terry created this online course to make the material available to more people. RLT Level 1 is designed to give you an in-depth introduction to the theory and practice of the RLT model. It is also the first step toward RLT certification and will prepare you for the Level 2 & 3 trainings.

Connection has never felt more precious or critical. We have never wanted more from our relationships, not just our romantic relationships but friends, family, and children. At no time in history has it been more clear that intimacy is life's grail. Yet divorce attorneys have never been busier. Perhaps this is because we all have lived in an anti-relational, addictive, narcissistic culture that may give lip service to the importance of relationships but has not taught us the skills to realize them.

As therapists, we can fill in those gaps. There is a world of relational technology that can be taught and mastered once we open to the need for it. We can give

our clients those tools. This is the basis of Relational Life Therapy (RLT)—my life's work.

Developing Terry's unique approach has been a thirty-year project. When he first got into the reality of practice, the couples who met with him were suffering, and the tools he had were inadequate for the task. Terry has made it his mission to figure out a way to bring relief, healing, and change to his clients.

Terry will share the fruit of his life's work in this training. You will access 3 LIVE calls with him where you can ask questions and discuss response with Terry. You will have the opportunity to go deeper into the theory and application of RLT.

In addition, you will also get over 6 hours of pre-recorded video training from Terry and RLT-certified therapist Shane Birkel and a wealth of practical case studies and demos designed to help you become a better, more confident therapist. Last, you'll receive five hours of previously recorded question and answer sessions.

This training has been designed for the helping professional to achieve an introductory level in the clinical practice of RLT.
